

** CANADA. 680, Jan 10 at 0727 UT, Canadian-orientated talkshow, suspect CJOB. Yes! 0728, promo CJOB sports. Dominating on E-W longwire, rather than KKYX or KFEQ. Like so many scofflaw Canux, CJOB must not be on legal night pattern, all signal heading NNE from Winnipeg (Glenn Hauser, OK, WOR)

** CHINA [and non]. 9155, Jan 10 at 1626, S5 Chinese, martial music; also 9255 sounds same, but local blob QRM; and same on 9560 where two carriers are detectable, beating. Aoki shows all 3 are CNR1 *jamming: vs Sound of Hope, 24h on 9155, supposed only until 1600 on 9255; and 9560 this hour only vs RFA Taiwan in Uighur (Glenn Hauser, OK, WOR)

** CHINA. 9785, Jan 13 at 1527, discussion of wind and solar, in American English so must be CRI: yes, this hour only from Jinhua 831 site for S Asia, but S5/S6 here (Glenn Hauser, OK, WOR)

** CUBA. 7335, Jan 12 at 0417, pulse jamming against nothing: hey, stupid DCJC, can't you tell R. Martí is on 7355, and 7435? Very strong even here and no jamming detectable on those (Glenn Hauser, OK, WOR)

** CUBA. 9790, Jan 12 at 0426, S9+40 wasted since modulation is extremely suported in CRI relay. Geez, it's hard enough to understand Cantonese when it's clear! (Glenn Hauser, OK, WOR)

** CUBA. 15230, Jan 13 at 1501, JBA carrier, presumably all that's left of RHC (Glenn Hauser, OK, WOR)

** IRELAND. 3413 USB, Jan 12 at 0436, YL with VOLMET, S9/+10. Shannon is here 24h per EiBi, altho San Francisco could be too with non-VOLMET comms (Glenn Hauser, OK, WOR)

** KUWAIT. 7590, Jan 12 at 0418, JBA carrier: got to be R. Farda at 0230-0830; we don't have to consider jamming against it, do we? Instead Iran will just throw station relatives in prison (Glenn Hauser, OK, WOR)

** MADAGASCAR. 15215, Jan 12 at 0431, talk at S9+10 but = noise level so JBA, and is the OSOB! Only signal on band. Trans/eq advantage rules: it's RFI in Swahili at 0430-0500. Now the 13 and 17 MHz bands are also totally dead (Glenn Hauser, OK, WOR)

** MEXICO [and non]. 800, Jan 12 at 0402 UT, heavy distorted QRM from XEERG, NL on my N/S shortwire; hardly any vs KQCV OKC on my E/W loop (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6960 USB, Jan 12 at 0415, variety of siren sounds intermittently; then at 0416 same on 6955 USB -- at least I think they are USB. Nothing reported in HFU: may have been only brief bits (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, Jan 10 at 0706, Station YHWH on late again, the thin voice of Josiah JBA at S8 = local noise level. Ron Howard also reports at 0727: ``YHWH (7475) heard from 0715+ UT; extremely poor everywhere I checked remote! The poorest I have ever heard him. Ron (Monterey, Calif.)`` (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 1640 kHz, Jan 9 at 0755 and still 0805 UT, dead air from KZLS ``Enid``, Still huge S9+53 implying on 10 kW day power. Wake up? BTW, NRC reports that WTNI 1640 Biloxi MS has been silent since June 25, 2024 due to transmitter problems. It used to QRM KZLS or whatever it was called then, when on night power, suspecting WTNI on day power (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1640 kHz, Jan 9 at 1931 UT chex, KZLS Enid still dead air. Jan 10 at 0750 UT, 24 hours after first noted, KZLS is STILL in dead air, but hearing another station under it, see USA: WSJP. Jan 10 at 1630, 2132, KZLS STILL3 dead air (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1640 kHz, Jan 11 at 0702 & 2117 UT, KZLS is ****still**** dead air, as first noticed Jan 9 at 0755, some 61 hours so far. I always wonder if advertisers in such a situation get a rebate, or no one notices anything amiss? Why in the world is Chisholm Trail Broadcasting burning 610+ kWh of juice for nothing, not including inefficiency factor (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1640 kHz, Jan 12 at 0405 UT, KZLS STILL dead air atop something. probably WSJP Relevant Radio, WI again. 1708 UT still, passing the 82-hour mark (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1640 kHz, Jan 13 at 1455, and Jan 14 at 0540 UT, STILL dead air from KZLS (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1640 kHz, Jan 15 at 2019 UT, KZLS Enid STILL dead air. The least they could do would be continuous Morse code IDs, worldwide multi-week DX test! (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1670 kHz, Jan 13 circa 2330 UT, Virtual DJ Radio still going, Jessica again, even near US 81/412 junxion in Enid, with QRM (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.1, Jan 10 at 2030, OG&E Part 15? transmitter next to Garfield County courthouse still on air but resumed dead air in \$tereo (Glenn Hauser, Enid, WOR)

** OKLAHOMA. Accompanying the dead air in \$tereo, I finally photograph the 95.1 sign in downtown Enid among the snow: OG&E Tree of Lights: https://www.w4uvh.net/95.1_OG&E_Enid.jpg (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.1 MHz, Jan 13 circa 2330 UT, OG&E Tree of Lights transmitter in downtown Enid is still dead air in \$tereo; range seems better than before, FWIW (Glenn Hauser, Enid, WOR)

** OKLAHOMA. RF 17, Jan 11 at 1900 UT, K17JN-D, 3ABN on 17-1, Enid's only local TV signal, is ***still*** dead audio, as first noted Dec 9, over a month ago!!! And still for more than a year mis-IDing itself as K17JI-D, which is really in California. I do see a program plug for ``Adventist World Radio`` in a sesquihour at 2030 UT, or `AWR 360 Broadcast to Baptism`. Another weekly time for that is Mondays 1100 UT. I watched some eps months ago and found there was precious little if any info about the frequencies, Kenneth of transmitters allegedly responsible for converting heathens, or from other Christian subcults? Fortunately 17-6, labeled 3ABN-PH carries the same programming as 17-1, and it has audio! Unfortunately, they split apart at 2030 UT, so the AWR show remains speechless on 17-1 only. I watch it anyway, seems to be about Europe, especially Ukraine, so not likely involving any SW; even before AWR drastically reduced its SW output. Furthermore, no closed captioning which could have been a saving grace (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. As of Jan 10, Optimum cable in Enid and presumably everywhere blox Nexstar stations, because of failure to reach agreement on costs. Here that includes our NBC affiliate, KFOR! (`4`) and all its subchannels, and its full-power substation KAUT (`43`, RF 19 ATSC 3.0, Cable 2), as well as NewsNation which had been on cable 85. Optimum already raised prices and now offers less! Apparently has something to do with MSG and sports rights, about which we don't give a damn, and would gladly dispense of ALL sports cable

channels and their costs.

Fortunately, KFOR RF 27 is an OKC station with reliable direct by antenna reception, even the UHF loop near ground level by a south-facing window, and certainly via rooftop antenna. Optimum is trying to drive us to some streaming service which includes Nexstar. More about this:

<https://www.cnet.com/tech/services-and-software/optimum-and-msg-the-latest-on-2025s-first-cable-carriage-dispute/>
(Glenn Hauser, Enid, WOR)

** PHILIPPINES. 9275, Jan 12 at 1549, song with good signal: not WMLK since it's huxtering on 15150 now. EiBi & Aoki show R. Liangyou at 1000-1600 via FEBC Bocaue site. WRTH treats this as merely another Chinese broadcast from FEBC, nothing about Liangyou; EiBi implies it originates in Hong Kong. But here it is:
<https://www.febchk.org/en/liangyou-en/>
Searching that for 9275 gets NO hits! (Glenn Hauser, OK, WOR)

** ROMANIA. 9510, Jan 12 at 0423, RRI VG S9+30/40 in English; 0424 `RRI Encyclopedia` about the Revolution of 1848 and slavery of the Roma people [i.e., ``Gypsies``, not Romanians]. Not found on listed // 7410 (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Fri Jan 10 at 2300, token English from SNR, VG S9+45 into Georgia SDR, starting with news this time. Too busy to listen undividedly, but around 2320 interview feature about an exhibition [what else?] ``Beyond a single`` something in Miami; 2326 pop music fill by ``headliners`` (Glenn Hauser, OK, WOR)

** SUDAN [non]. 11650, Jan 11 at 0428, S9+20/10 of dead air is the SSOB; 0429 R. Dabanga ID in passing, also shouted; MADAGASCAR relay of course so also thisaway (Glenn Hauser, OK, WOR)

** U S A. 293 MCW kHz, Jan 12 at 0746, UI, qUIncy IL, ND beacon mixing with FBY, FairBurY NE. Normally hear FBY only. Per dxinfocentre, UI has a power advantage, 30 watts vs only 25 for FBY (Glenn Hauser, OK, WOR)

** U S A. 344 kHz, Jan 12 at 0757 UT, open carrier; compared to othersigs, this one should be strong enough to hear an MCW ID if any were transmitted. Most likely JL, JopLin MO, 25 watts altho there is also JA, JAxonvil FL, 400 watts (Glenn Hauser, OK, WOR)

** U S A. 359 MCW kHz, Jan 9 at 0728 UT, GGF, 25-watt ND beacon at Grant, Nebraska (Glenn Hauser, OK, WOR)

** U S A. 365 MCW kHz, Jan 15 at 0731 UT, AA, 100-watt ND beacon at Fargo ND, axually across in MN (Glenn Hauser, OK, WOR)

** U S A. 6501 USB, Jan 12 at 0412, S9+30 of roboman voice obsessed with ``seas`` and ``winds`` concerning the Atlantic, Bahamas. It's NMN, Chesapeake VA during this 0330-0430 segment, USCG timeshare with NOJ Kodiak, NRV Guam, NMO Honolulu, per EiBi (Glenn Hauser, OK, WOR)

** U S A. 8992, 11175, 15016, 4724, all USB, Jan 13 at 1531, tail end of US military alphanumeric cypher message exercise, with a dog yip before he's quite finished (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2276 monitoring: confirmed UT Thursday January 9 at 0130 on WRMI 5010, S6/S8 into Maryland SDR, while Bonaire as often was maxed out. Followed `Frecuencia al Día` and some deadair instead of ID.

``OFF today Jan 09th due to local weather --- Hi Glenn, just to let

you know, there will be no airing of WOR this european afternoon / evening as we suffer from heavy snow the whole day. At Winsen site, temps were at +1 degrees C in the morning with heavy rain, but falling to -1 degrees C during the course of the day. Rain turned into snow, resulting in heavy ice on our antennas. 6160 tx tripped out at around 13:00 UT. 3975 is also seriously effected. Temps should rise again soon - hopefully we will be back tomorrow. 73s Andy (Engineer, Shortwave Radio, Winsen on the river Aller)`` Would have been final repeat Thu 1730 on 3975

WORLD OF RADIO 2277 contents: Algeria, Brasil and non, (China non), Cuba and non, Eritrea non, Germany, India, Indonesia, Iran, Japan and non, Kyrgyzstan and non, Laos and non, Madagascar, Mali, México, Moldova, Myanmar and non, North America, Norway, Philippines, Romania, Scotland non, Spain and non, Swaziland, Switzerland, (Tibet), (UAE), USA, Vanuatu; propagation outlook - (countries mentioned along with others not in order)

0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.

Thanks this week for a very generous contribution via PayPal in US funds but not necessarily, to woradio at yahoo.com, from Peter Robinson, Preston UK, and says, ``All the best for the New Year, 73's to all DXers, especially British DX Club.``

One may also contribute by money order or check on a US bank to:
Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2277 monitoring: missed checking

1300 UT Friday Jan 10 on WRMI 15770; anyone hear it? Tuned in after 1330 to robotic Bibling typical of Alameda. Is that AI? Or just a text reader.

Confirmed Friday January 10 at 2130 on IRRS SW via AM Italia, 1322.998, S8 into nearby Parma SDR; preceded by music and 2129 DRM promo curtailed, NEXUS ID. Next:

2300 UT Friday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2330 UT Friday SW Radio, Germany 3975;
0400 UT Saturday WTW 5085 [has been off the air];
0930 UT Saturday WRMI 9455 to WNW [has been off air; or 7730];
1530 UT Saturday SW Radio, Germany 6160;
1830 UT Saturday SW Radio, Germany 3975;
2030vUT Saturday WA0RCR 1860-AM [2000/2200];
0000 UT Sunday WTW 9475 [suspended];
0100 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
0330vUT Sunday WA0RCR 1860-AM [nominal 0415; as late as 0600];
1130 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Sunday IRRS 1323-Italy;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW [and/or 7780];
0030 UT Monday WRMI 7780 to SW;
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;

0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2277 monitoring: confirmed Friday January 10 at 2300 on WRMI 9955, S9+30 into Georgia SDR.

Also confirmed Friday January 10 at 2330 on SW Radio, Germany, 3975-, S7 into Sligo, no signal into UTwente that late at night.

Not confirmed UT Sat Jan 11 at 0400 on 5085, as WTW is still off the air; next week?

Also confirmed Saturday January 11 at 1552 on SW Radio, Germany, the 1530 on 6160.001, S9+10 into UTwente, with usual ChiCom ACI from S9+10/15 6165, but evitable by LSB tuning and/or reduced bandwidth. Stayed on air 1600+ with ``Weekend Music Radio, Scotland`` including Morse code ID at 1605; now 3975.000+ is also on, S9+10, maybe before 1600 too? 6160 itself does not face CCCI until 1800, but off before 1730 recheck.

Also confirmed Saturday January 11 at 1700 on WRN North America stream.

Also confirmed Saturday January 11 at 1830 on SW Radio, Germany, 3975, S5/S8 into Sligo SDR, nothing into UTwente.

Also confirmed Saturday January 11 at 2030 on WRN North America stream. And 2100 on WRN Europe stream.

Also confirmed Saturday Jan 11 starting at 2058 the 2030v in WA0RCR, 1860 AM, M0, VG S9+21 by groundwave into nearby SDR. Next:

0000 UT Sunday WTWV 9475 [suspended];
0100 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
0330vUT Sunday WA0RCR 1860-AM [nominal 0415; as late as 0600];
1130 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Sunday IRRS 1323-Italy;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW [and/or 7780];
0030 UT Monday WRMI 7780 to SW;
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2100 UT Tuesday IRRS 1323-Italy;
0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2277 monitoring: confirmed UT
Sunday January 12 at 0100 on WRMI 9955, S8/S9 into Maryland SDR.

Confirmed UT Sunday January 12 at 0437 UT, on WA0RCR, 1860 AM, M0, VG
S9+10 direct; following ARRL News which had started at 0423. Next:

2000 UT Sunday IRRS 1323-Italy;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW [and/or 7780];
0030 UT Monday WRMI 7780 to SW;
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2100 UT Tuesday IRRS 1323-Italy;
0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2277 monitoring: Also confirmed
Sunday January 12 at 2000 on IRRS SW via AM Italia, 1322.998, S9 into
UTwente

Also confirmed Sunday January 12 at 2100 on WRN Europe webcast.

Also confirmed Sunday January 12 at 2239 the 2230 on SW Radio,
Germany, 3975.003-, S7 but noisy into UTwente.

Also confirmed Sunday January 12 at 2346 the 2330 on WRMI 7780, and
7570, both S9+10/20 into south Texas SDR.

Also confirmed UT Monday January 13 at 0030 on WRMI 7780, S7/S9 into
south Texas SDR.

Also confirmed UT Monday January 13 at 0400 on Area 51 webcast only.

Missed checking Mon Jan 13 at 2030 on SW Radio, Germany, 3975; anyone

hear it?

Confirmed UT Tuesday January 14 at 0330 on WRMI 7780, S9+5/15 into S Texas SDR. Next:

1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2100 UT Tuesday IRRS 1323-Italy;
0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2277 monitoring: ``From: Richard Lemke, St. Albert, Alberta, Canada, the desk of Richard's listening Post, Radio: JRC NRD-535 HF, antenna: random long wires in the trees, WRMI, USA, World of Radio #2277, 9395 kHz, 0031, 0044, 0057, 0058 (4-55433), 0059, January 15 UTC 2025 (Lemke, Richard -AB)``

Confirmed UT Wednesday January 15 at 0030 on WRMI 9395, S9/+10 into Peoria SDR. As always the preceding program, 'Midnight Cry Ministry' is chopped for WRMI ID just as attempting to utter website.

Also confirmed UT Wednesday January 15 at 0030 on SW Radio, Germany, 3975.003+, S7/S9 into UTwente.

Also confirmed Wednesday January 15 at 2030 on SW Radio, Germany, 3975.002-, S7/S8 and noisy into UTwente.

Also confirmed Wednesday January 15 at 2226 the 2200 on WBCQ 7490-, JBA direct, sounds like me but can't be sure it's current episode, altho probably. Next:

0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.

Thanks this week for a very generous contribution via PayPal in US funds but not necessarily, to woradio at yahoo.com, from Peter Robinson, Preston UK, and says, ``All the best for the New Year, 73's to all DXers, especially British DX Club.``

One may also contribute by money order or check on a US bank to:
Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. 5085, UT Jan 9 between 02 & 04, still no signal from WTWV.
``Glenn, The part for #2 amplifier arrived ( D O A ). Dead On Arrival. XMTR is still down, awaiting new parts from China. George McClintock 1-9-2024`` (Glenn Hauser, OK, WORLD OF RADIO 2277)

** U S A. 9495: as I notified Jeff White: ``9395 transmitter was putting out a loud and extremely distorted spur approx. 9495 last night during SMTV. Never heard anything like that before from WRMI. Also, the modulation on 9395 itself was somewhat distorted, S9+20/25`` {no reply but not heard since}
- First noted at 0711 Jan 10; at 0715 ``global weather``, entirely musical as must have been a visual display only. Hey, SMTV, this is RADIO! (Glenn Hauser, OK, WOR)

** U S A. 9395 // 9455, UT Sun Jan 12 at 0421, WRMI on both with dramatic narration, weird music, S9+30/40 and S9+40 respectively. 9455 had made fitful attempts to resume long after hurricane damage; we'll see if it remain this time. Per XMTR grid, 9395 WRMI-6 is System G

with TOMBS, 9455 WRMI-11 off after System E TOMBS until 0400. System G itself shows TOMBS on both at 0400-0500 UT, except UT Sunday: 0400 `Rural Routes`, 0430 `Wavescan`. What's `Rural Routes`?? Nothing about it on the Programming page. 9455 is off again at 1548, JBA carrier from CRI Kunming this hour only. WRMI-11 is sked 23-04 UT only, BTW the skedgrid is now dated at the top ``effective January 11, 2025` -- so it ought to be totally accurate, altho individual Systems still show ``effective March 10, 2024``! (Glenn Hauser, OK, WOR)

** U S A. 7570, Jan 13 at 0640, WRMI `Legends` with Ted shilling something. Very late hour for that? But transmitter grid now shows it at 05-07 System C on 7570; while System C grid shows 01-04 on 5050, 04-06 on 9455, nothing on 7570 (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` WBCQ chex, UT Sat Jan 11 at 0055 into Georgia SDR: 3265 & 5130 off. 6160 -69 Hz = 6159.931 music, S9/+15. 7490 -75 Hz = 7489.925, S9+20/30 with FKB. At 0058, 5130 -32 Hz = 5129.968 now on with IS & ID, S9/+10. At 0100, 6160- starts something else despite program guide, while 5130- & 7490- combine into `WT0` theme of `AAAWWW`. Allan's first voiceover: ``It's the beauty of broadcasting...`` 0103 greeting Angela, ``you have a frog in your throat -- at least it's not me``, hee hee. Assessing the temperatures in Florida. Most of the program is extolling AM Radio = which includes shortwave. 0140 finally datestamp as 10th of January, Y00LF 2025, simulcasting on 7490 & 5130. 0141 plays music Ian requested, a Bolero in tribute to Jeff Beck, recently deceased guitarist. 0144 fiddling around, 0146 playing some hard rock music for Angela, after trying to get her to pick out something. 0155 wants to put Radio Caroline, now on AM in England, on SW, but needs someone to underwrite it. 0158 quick look at some emails, past 0200, prayer, and after 0202 JIP Hal Turner (Glenn Hauser, OK, WOR)

** U S A. 590, Jan 15 at 0733 UT, `Newsradio KLBJ`` promos, no mention of AM or FM frequency. NRC AM Log shows translator on 99.7. Is U2 5/1 kW. Night pattern with notch to the north from Austin, protecting Omaha, which is normally dominant here (Glenn Hauser, OK, WOR)

** U S A. 880, Jan 12 at 0758 UT, open carrier/dead air atop some Mexmx; 0800 finally alive with KRVN ID, Fox `news`. See also UNIDENTIFIED (Glenn Hauser, OK, WOR)

** U S A. 900, Jan 9 immediately at 0746 UT tune-in, ID ``WKDA and W252DU, Lebanon`` TN. NRC AM Log shows part of the time, WKDA is in the group ``FM 98.9 Real Country``: WCOR 1490 Lebanon, WANT 98.9 and mere translator W252DU 98.3, which in the Groups listing disincludes WKDA. 900 listing shows another mere translator for it, W270DM, 101.9. 900 is U1 5000/136 watts. Radio-locator shows a previous callsign for WKDA was WCOR. It also shows slogan ``Radio Luz`` which sounds Spanish, but no hint of Spanish in NRC AM Log, rather split format of C&W and NOS. WTFDA FM DB shows W252DU is a relay of WCOR 1490. Is that clear? (Glenn Hauser, OK, WOR)

** U S A. 900, Jan 12 at 0442 UT, ads with 903 area code including hair stylist. The only fit in NRC AM Log is KPYN Atlanta TX U1 1000/33 but was Christian and silent as of 11/2023. When did it become unsilent? (Glenn Hauser, OK, WOR)

** U S A. 990, Jan 12 at 0806 UT, ``Mighty 9-90, K-Wam and 107.9`` after ads so not CBW; CBS News, mentions South Haven, but this is not Kansas; per NRC AM Log, only 990 with this slogan and FM translator match = W300DE, is KWAM Memphis TN, U4 10000/450. But not listed as CBS affiliate, rather Fox. Southaven MS is a Memphis suburb right on the border (Glenn Hauser, OK, WOR)

** U S A. 1020 kHz, Jan 15 at 0744 UT, ``100.1 FM and 1020, KDKA`` -

yes, 100.1 is a mere translator, but gets top billing at this heritage AM station in Pittsburgh PA. Here, gets plenty blockage by KOKP Perry OK, where was it? and 50/50 kW KCKN Roswell NM, RVC in Spanish. But it has a long-standing STA for ``U4 30000/50000, night pattern 24 hours (expires 2025-06-28)`` per NRC DXtra. That doesn't quite make sense, but radio-locator shows night pattern major lobes to NW and S, pulled in toward us and KDKA but not a deep notch. Daytime pattern quite similar (Glenn Hauser, OK, WOR)

** U S A. 1200, Jan 12 at 0446 UT, 9-second loop over and over, ``This is the Houston Texans Radio Network`` including ear-splitting tone for 5 seconds, still past 0451 when I can stand it no longer. OMG, *STILL DOING THAT* at 0635 recheck. O, how the mighty have fallen! No one minding the store at WOAI San Antonio, the nation's premier Clear Channel Station! Yes, that's ``Texans``, not ``Texas``, a team name? Yes, football. Eric Fetters-Walp in Washington and Walt Salmaniw in BC could also perceive it thru QRM. STILL going at 0744, 0808 chex, and Roger in Germany says still past 0915 UT. And:

``Still doing that now at 1300Z, after my local sunrise. Quite strong signal into Birmingham, not unusual here. Oh it just stopped, Fox News about plane crash at 1304. Dead air after end of Fox News at 1305. End of DX test! Dead air ends at 1307 with promo for a show "on 1200 WOAI", ad for pet shelter, then dead air again. Eike Bierwirth, Birmingham, AL`` (Glenn Hauser, OK, WOR)

** U S A. 1640 kHz, Jan 10 at 0750 UT, KZLS Enid *still* in dead air of S9+40, or is it JBM? Some steady talkshow clearly audible, but not // 1390 KCRC as KZLS would be. Anti-immigrant subject, mentions Franciscans, so Catholic? Fades a bit 0755, 0759 multi-station Wisconsin IDs, and ``Relevant Radio`` - so it's WSJP Sussex, HQ address in Green Bay. Network attributes 1640, however, to Milwaukee (Glenn Hauser, OK, WOR)

** U S A. 1640 kHz, Jan 11 at 0702 UT, Relevant Radio, under S9+42 of still dead air from KZLS Enid, so it's WSJP, Sussex WI again (Glenn Hauser, OK, WOR)

UNIDENTIFIED [and non]. Jan 11 at 0712-0725 or so UT, I tune the entire beacon band via 100-foot E/W longwire, and detect many JBA carriers vs intolerable local line noise level which has abated only slightly; and no storm noise now. Without the line noise I would have many more definite logs. Results, reference dxinfocentre.com including (best guesses) based on previous logs, proximity, power, otherwise calls definitely logged:

227, (FZ St Louis MO, TNZ Walnut Ridge AR)
251, (AM Amarillo TX)
255, SW StillWater OK
260, (JH Jackson MS)
267, HET HenryETta OK
278, (CEP Ruidoso NM, IL Killeen TX)
284, (BT BaYon Rouge LA, SLG SiLoam SprinGs AR)
293, FBY FairBurY NE
300, (YIV Island Lake MB)
305, (OI SiOux cItY NE, RO ROswell NM)
326, MA MidlAnd TX
329, PMV PlattsMouth NE
332, IC wIChita KS
335, BV BatesVille AR
338, TU TULsa OK
341, DNI DeNIson TX
344, JL JopLin MO
346, dash and YXL, SiouX Lookout ON
353, LI LIttle Rock AR

356, ODX Ord NE
359, (GGF Grant NE)
362, (CD ChaDron NE)
365, (AA Fargo MN)
375, (DS Searcy AR, LF LaFayette LA)

407, OOC NatchitOches LA - NEW, 25 watts, instead of usual HRU
Herington KS
420, (FQ Fairmont MN)
(Glenn Hauser, OK, WOR)

UNIDENTIFIED. 410 kHz, Jan 12 at 0757, JBA carrier. DXinfocentre.com says this is a ``Maritime RDF Channel``. Only 3 USAs listed in IN, TX, NC and several in Canada (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 880, UT Sun Jan 12 at 0440, Spanish talk dominates especially on E/W loop with less CCI from KRVN to the north. Seems to be religious, of which there are two in NRC AM Log: KKMC Gonzales CA, U4 10000/10000; WRRZ Clinton NC, D1 1000; but bigsig more likely from supposedly secular: WIJR Highland IL as previously heard, U4 1700/160; WMDB Nashville TN U1 2500/2! watts; KJOZ Conroe TX U4 10000/1000. I also wonder if KHAC Tse Bonito NM U1 10000/430 is ever Spanish besides Navajo/English (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1280, Jan 11 at 0706 UT tuneby, immediate ID as ``1280 WBBN`` or so I thought. Looking up later, no such call nor anything fuzzily similar. There is a WBBN-FM in Taylorsville MS on 95.9 but no connexion to 1280. Desperate, I look for fuz/sims on 640 of which 1280 would be 2X: WMEN, Royal Palm Beach FL; WBIN Atlanta GA; CBN St. John's NL --- all extremely unlikely (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1440 kHz, Jan 12 at 0811 UT, ID sounds like KBUS or KBUN, but no fits; the closest fuzzies would be my two closests: KPUR Amarillo TX and KTUV Little Rock AR (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7890, Jan 12 at 0418, JBA carrier: I would like to think it's an harmonic leak from 3945 VANUATU like in the good ole days, altho rather too early for either to be active and propagating. Even Klingenuß 2022 has no ute on this exact frequency (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 12145-12190, Jan 13 at 1525 huge wideband multi-tones, peaking around 12180 at S9. This would be a big problem for WWCR, but recheck 1611 after it's on, the tones are gone (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 13590, Jan 13 at 1520, weak carrier cutting off and on rapidly, and maybe some modulation on it. It's the OSOB extracontinental besides 13820 & 13845. EiBi shows VOA Deewa Radio via Lampertheim, GERMANY but also could be CNR1 jamming vs Sound of Hope (Glenn Hauser, OK, WOR)
